

LA FONDATION
POUR ENFANTS DIABÉTIQUES

THE DIABETIC
CHILDREN'S FOUNDATION

Dear supporter,

Every gift is precious. Just as every child.

In this time of festivities and year end vacations, let us take a moment to remind ourselves that diabetes does not give holidays to the children. New diagnoses of type 1 diabetes are made almost every week in Quebec among young people aged under 18. The needs are great.

Diabetic children have no break from the disease. And we always want to do more for them. This is why your donations, big or small, spontaneous or planned, yearly or monthly, are continuously awaited and recognized. Thanks to your contribution, you make a concrete and direct action for the health of young people living with type 1 diabetes.

Your financial support to the Foundation and Camp Carowanis translates into extending our voice to convey this message to the thousands of families of diabetic children and adolescents: you are not facing the disease alone.

THANK YOU FOR DONATING HERE
